Step 1
Follow the in-app setup process
In the Ring app, select the option to add a new device. When prompted, select Video Doorbell Pro, and follow the in-app instructions.

Step 2
Install the faceplate
Secure one of the faceplates with a security screw, using the star-shaped end of your Ring screwdriver.

Shared Users
To let family or friends answer live events and view recordings (if cloud recording is enabled), select Shared Users on the settings screen of the Ring app, and enter their email(s).

Motion Detection
Motion detection is disabled by default. To enable and customize motion detection, select Motion Settings on the settings screen of the Ring app.

Cloud Video Recording
This optional feature saves events captured by your Ring Doorbell Pro.

Live View
Select the Live View button on the settings screen of the Ring app to access a live stream of video from your Ring Doorbell Pro at any time.
When someone’s at your door, or if motion is detected, you can perform the following actions:

- Disable/enable your microphone
- Mute/unmute sound in the app
- Zoom in/out
- Access the Ring Plus menu

You can toggle alerts for rings or motions on or off in the Ring app.

The front light on your Ring Doorbell Pro uses various patterns to communicate messages. Here are some common ones:

- Blue Spinning
- Front Button Pushed
- White Solid
- Blue Solid
- Ring Speaker Enabled
- White Flashing
- Updating Software
