Keypad Locks
Programming Guide
Function Descriptions

1. **Add User Code**
   - Adds one User Code to the lock.

2. **Delete User Code**
   - Deletes one User Code from the lock.

3. **Change Programming Code**
   - Changes the Programming Code.

4. **Enable/Disable Vacation Mode**
   - When Vacation Mode is enabled, User Codes will not unlock the lock.
   - Used to ensure lock remains secure while you are away from home.
   - Disable vacation mode to resume normal operation.

5. **Enable/Disable Beeper**
   - When the beeper is enabled, the lock will beep once with each key press, and multiple times for other indications.

6. **Delete All User Codes**
   - Deletes all the User Codes from the lock at once.

7. **Enable/Disable Turn Lock Feature**
   - Applies to Keypad Deadbolt (BE365) only.
   - Enabled by default. Allows easy re-locking of deadbolt from the outside.
   - When disabled, a valid user code must be entered to lock the deadbolt from the outside.
