Home security beyond the front door

Ring Video Doorbells and Cameras create a Ring of Security around your entire property.

Ring Alarm is the security system that takes your Ring of Security a step further, giving you another level of protection for your property.

Now, you can arm and disarm your system and monitor your home, all from your phone, tablet or PC.

### Diagram

**1. Set up your Ring Contact Sensor near your Base Station.**

To add devices to your Ring Alarm, it must be disarmed. If your Ring Alarm is armed, please disarm it now.

In the Ring app, choose Set Up a Device and find Ring Contact Sensor in the Security Devices menu.

To complete the setup process, follow the in-app instructions.

When prompted, scan the QR Code or enter the PIN.

The QR Code and PIN can be found on the back of your device, on the box, or on the card in this box.

### Contact Sensor

1. **Say hello to your Ring Contact Sensor.**

2. **Set up your Ring Contact Sensor in the Ring app.**

3. **Connect your Ring Contact Sensor to your Base Station.**

For Ring Alarm
Pull the tab on the Contact Sensor to activate it.

4. Install your Ring Contact Sensor on the wall.

- **LED Status Patterns:**
  - **Blue Solid (5 sec)**: Connected
  - **Blue Blinks (3x)**: Sensor tampered
  - **Blue Blinks (1x)**: Door or window open
  - **Blue Blink (1x)**: Phone rang

Place your Sensor (but don’t install it yet)

- Hold the Sensor where you want to install it. Place it near an edge of the door or window that will move.

Align the magnet and the sensor

- Place the magnet on the trim near the sensor so that the lines on the sensor and magnet are parallel. The magnet and sensor can be a maximum of 1/2" apart.

Install your Sensor on a door or window

- Use the bracket and tape or screws included in your kit.

How to change the battery

- Press the clip and remove the sensor cover. Replace the battery with a fresh CR123A cell.
